Water For People—Canada
De L'eau Pour Tous—Canada

1st Annual Water For People Charity Golf Tournament Springbank Links September 6, 2017

Help us to kick off the Western Canada Section's 1st Annual Water For People Charity Golf Tournament on the beautiful Springbank Links Golf Course.

All funds raised at the Charity Golf Tournament will go towards supporting Water For People's mission to create a world where everyone has access to reliable and safe drinking water, specifically programs in Peru. In addition to networking with other friends of Water For People and playing a spectacular round of golf, you will be making a contribution to the life-changing and the life-saving work we do around the world.

Whether you register as a foursome or a solo player, we look forward to sharing the day with you. Hope to see you on September 6! Thank you for your support.

Sincerely,

Kari MacDonald
Chair, Western Canada Section WFP Committee

Where will my money go?

All funds raised from this tournament will go towards supporting Water for People Programs in Peru. Water For People began its program in Peru in 2008 and began 'Everyone Forever' programming in Cascas 2011 and Asunción in 2013. Significant progress has been made in these areas over the past several years. For example, in Asunción since 2013 household water service has increased from 8% to 72% and the number of households with their own latrines has increased from 52% to 70%. Water and sanitation service coverage for schools and clinics in Asunción has also been increased from 4% to 92% since Water for People started working in the country.

Water For People exists for one purpose, and it's as simple as our name: we want all people to have safe, continuous water and when they do, our job will be done. We want water for everyone, forever.

Water for People engages people to find out how they live and what they need to feel healthy, safe, empowered, and successful. The solutions we develop are based on long term needs – and long lives. We don't want to be around forever, but we want clean healthy water to be. With your support, we can make this possible!

It's your opportunity to make a difference for others
